Do's

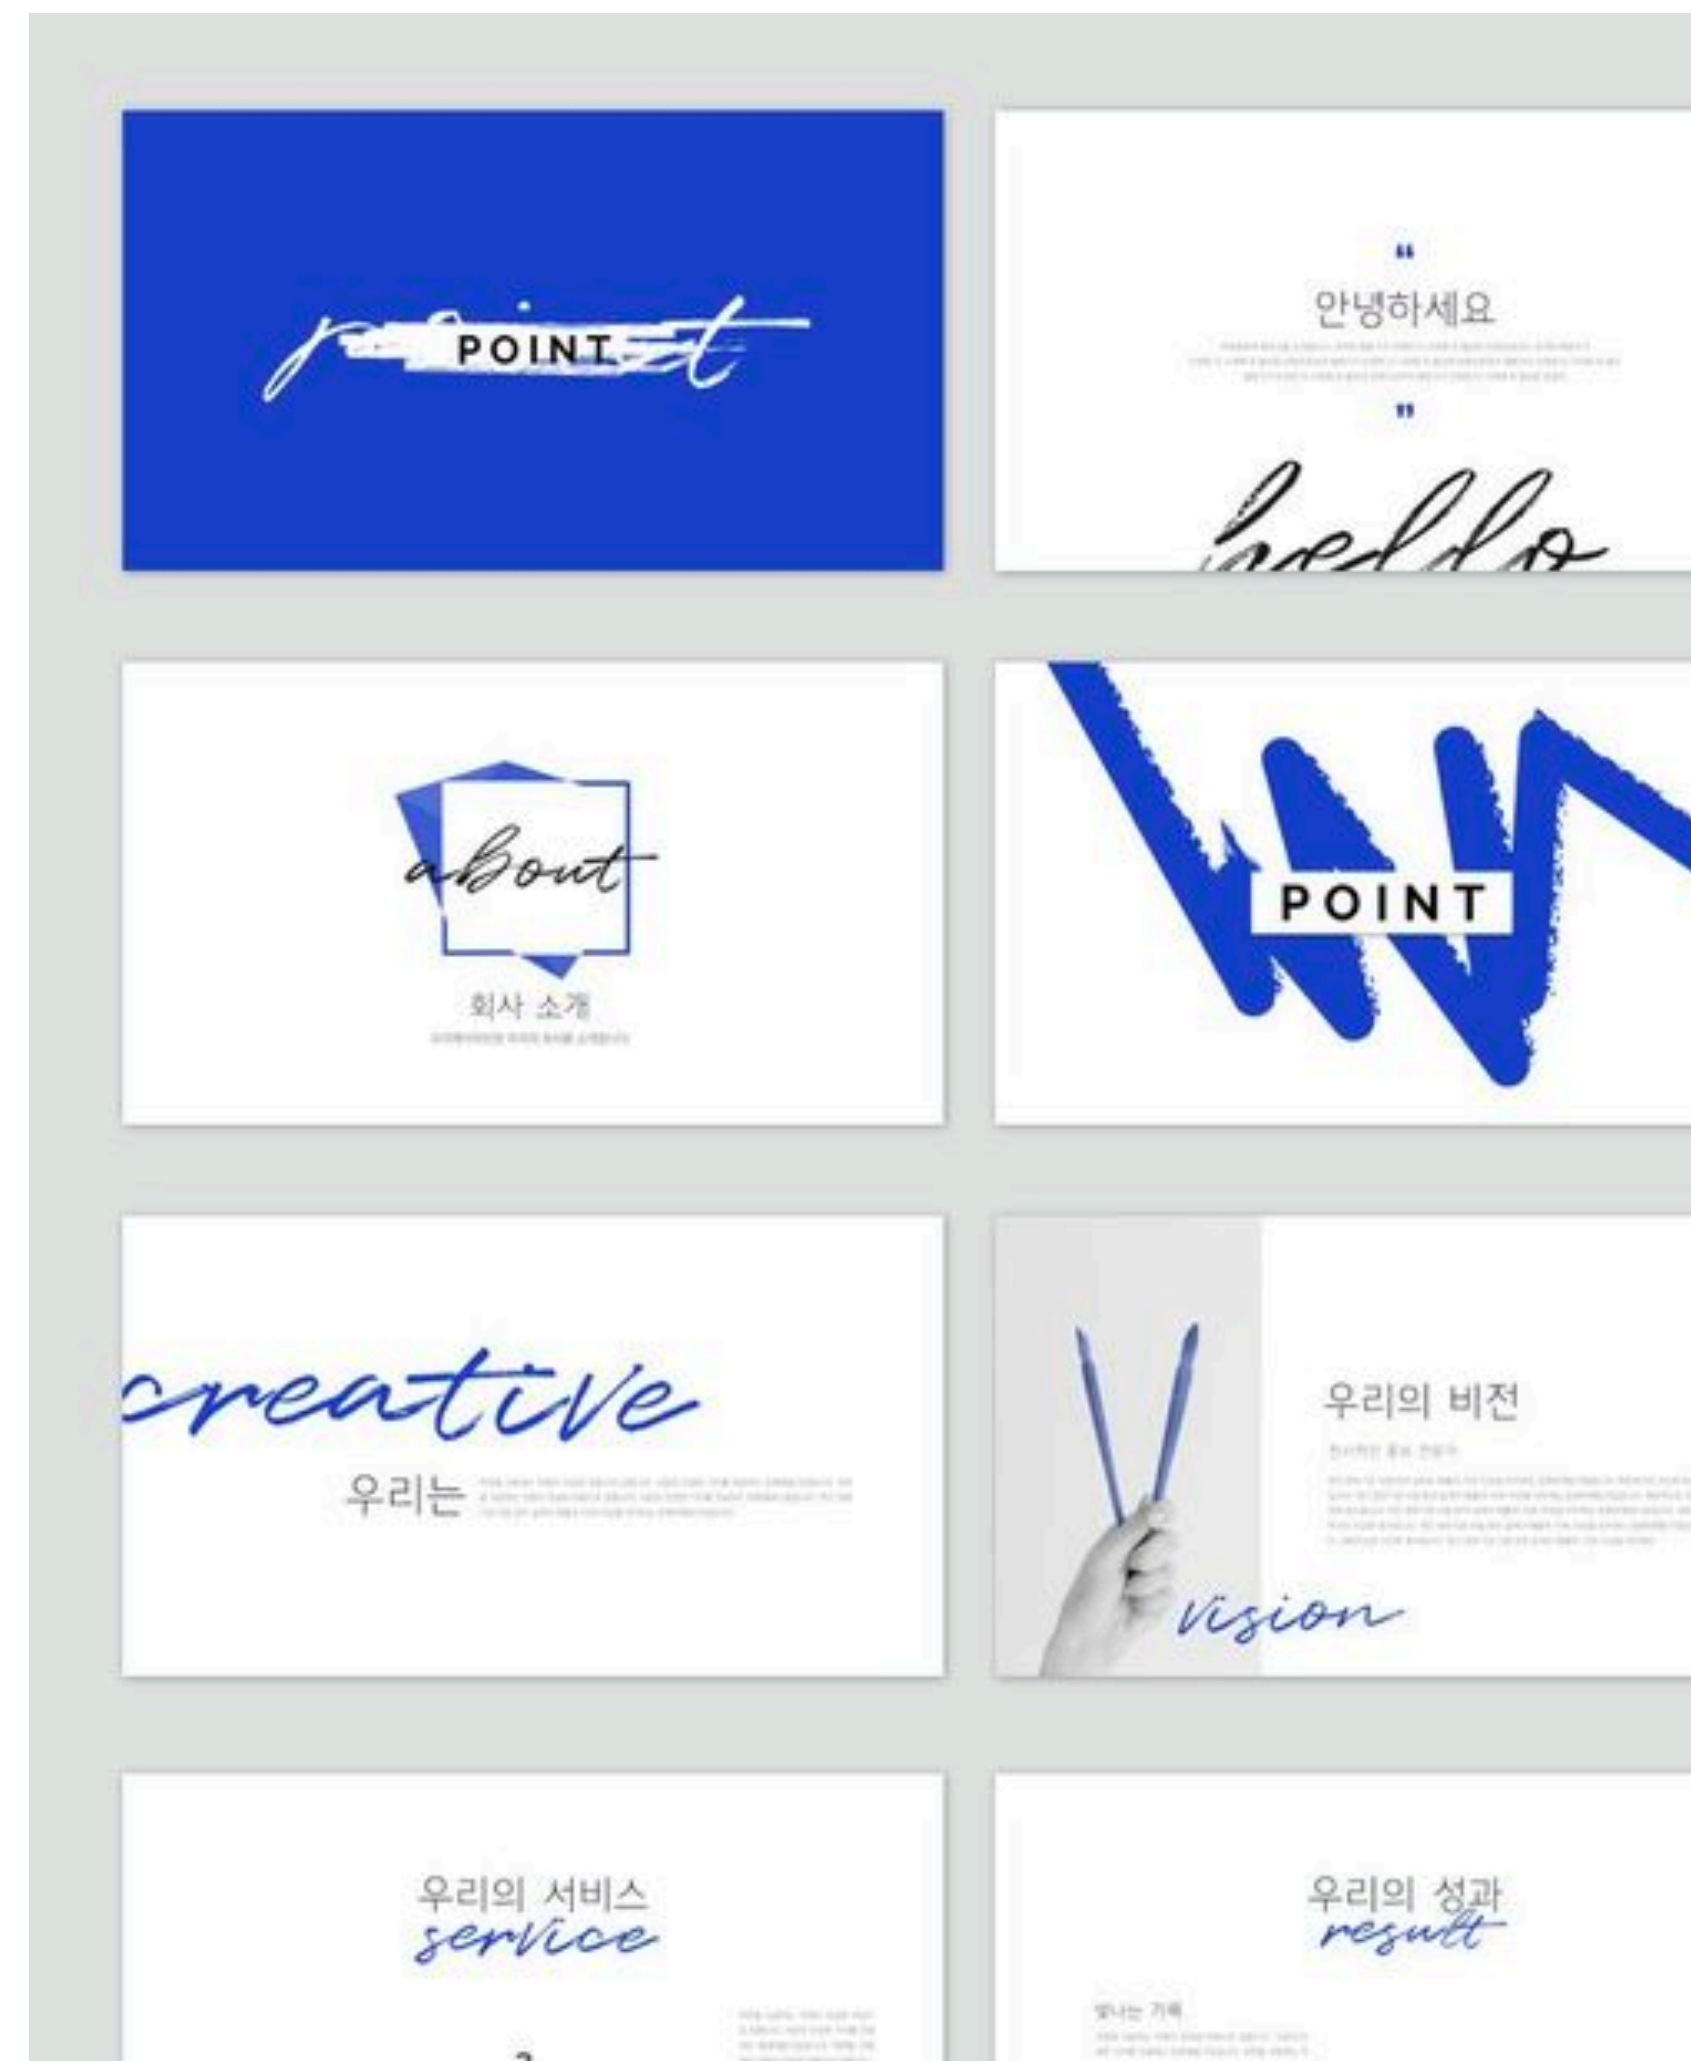

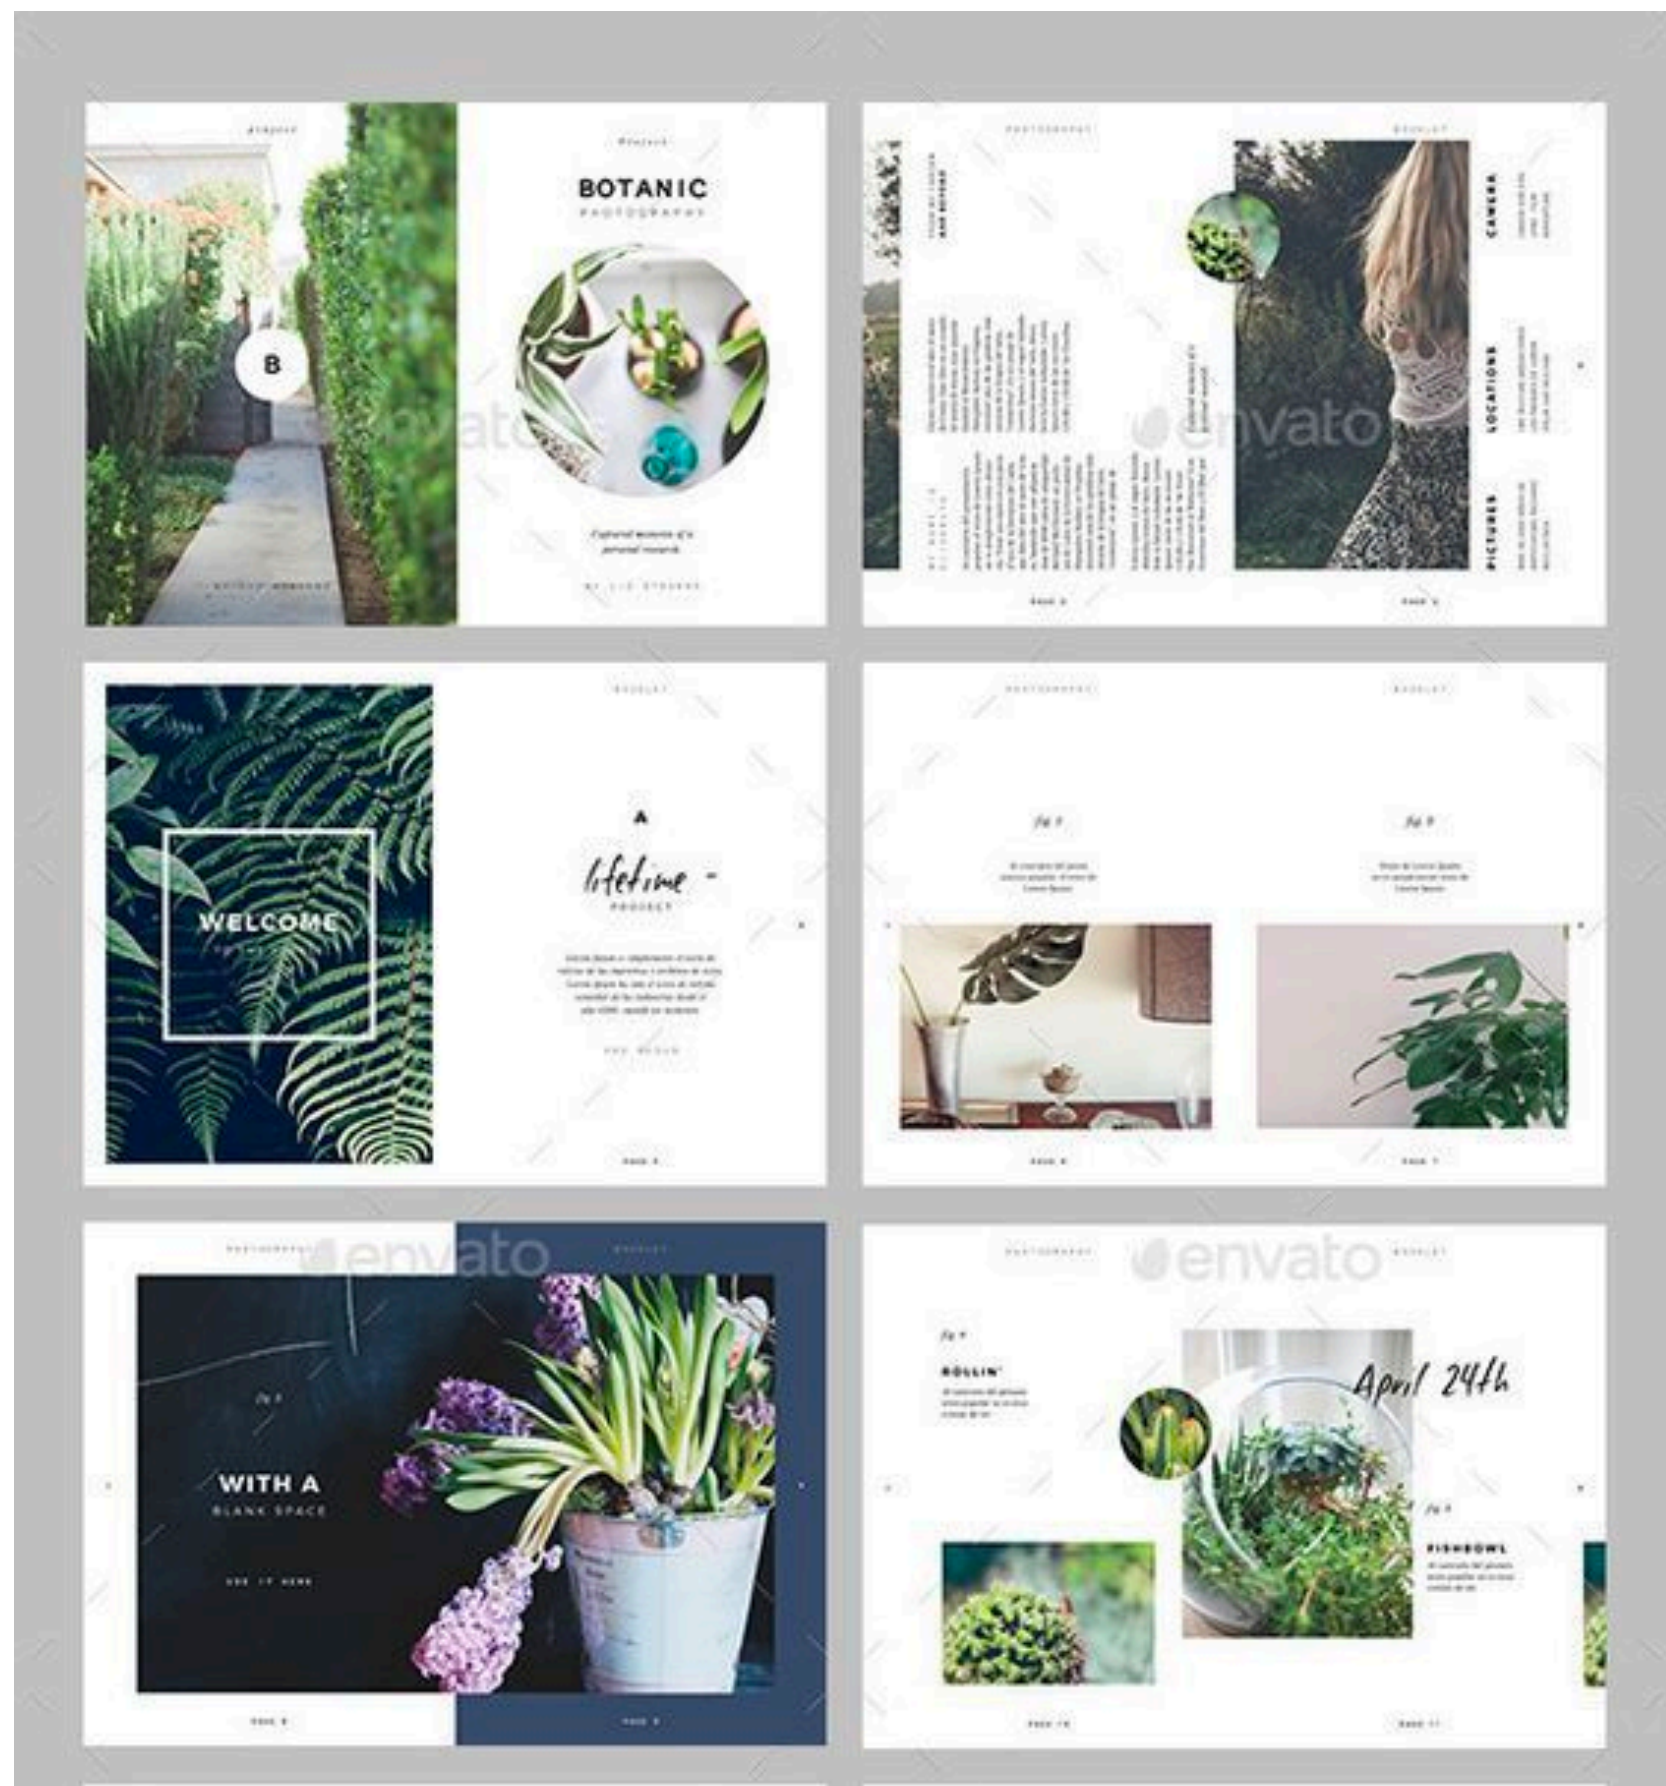

A high-angle, over-the-shoulder shot of a person sitting at a wooden desk. The person's left hand is holding a silver smartphone with a dark screen. The phone's screen is the focal point, with the text 'Even checken!' overlaid in white. In the background, a silver laptop is open on the desk. To the right of the laptop, a white coffee cup is visible. In the bottom left corner, there is a black notebook with a silver pen resting on it. The person's right hand is partially visible, resting near the laptop. The overall scene suggests a professional or work environment where multitasking or checking devices is common.

GEO SPEECH
One morning, when Gregor Samsa woke from troubled dreams, he found himself transformed into a horrible vermin. He lay on his armour-like back, and the thin plates made it difficult to move, and he was very lumpy and hard to cover. And whenever he wanted to stretch his arms, he found it impossible to do so because of the stiffness of his joints. He had to lie on his back, and he was very lumpy and hard to cover. SERVICE
One morning, when Gregor Samsa woke from troubled dreams, he found himself transformed in his bed into a horrible vermin. He lay on his armour-like back, and if he lifted his head a little he could see his brown belly, slightly domed and divided by arches into stiff sections. The bedding was hardly able to cover it and seemed ready to slide off any moment now many legs, poor things.
